HOW IT WORKS

01 STEP 1
Current and former abortion workers reach out to our organization via call, text or email to start their journey to freedom!

02 STEP 2
Our intake manager will listen to their concerns, explain ways we can help them and connect them with an experienced client manager who will walk the journey with them.

WE CAN HELP!

03 STEP 3
Their client manager will help them with job leads, discuss possible financial assistance, and introduce them to a network of resources, including connecting them with a community of former abortion clinic workers who have similar experiences.

04 STEP 4
Rediscover the peace and joy they have been missing in life.

Re(discovering) the key to true joy and real freedom
