

Our mission is to love and support Birth Mothers big and well throughout the Open Adoption Process

### Open Adoption Allows the Expectant Mother to Have:

**Power:** You choose the adoptive parents, decide the post-adoption contact, and control the hospital environment.

**Hope:** Open adoption replaces the "I wonder?" attached to abortion and foster care, with the permanency of "I know!" through phone calls, pictures, letters, and visits as designed by you.

**Love:** Open adoption brings love to both of you through a forever connection with your child and the adoptive parents.

**Family:** Choosing to extend your family through open adoption gives you and the adoptive family one purpose: being attached forever to love your child unconditionally.

# Why We Are Different

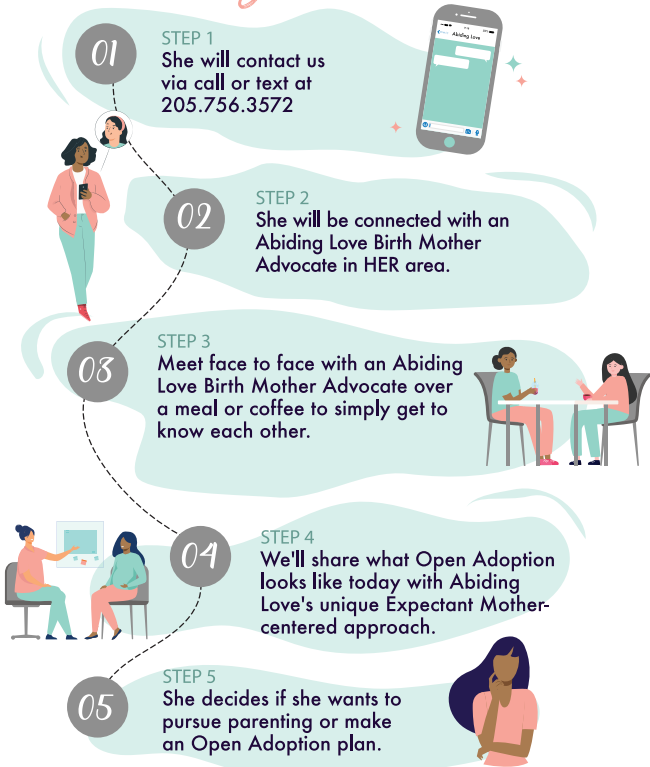

We specialize in Infant Adoption. We are located and licensed in Georgia, Florida, Alabama, South Carolina and Tennessee.

## We only work with the Birth Mother and/or Birth Parents.

When creating an adoption plan, we do not work with or represent the interests of the Adoptive Family. This allows us to love and protect our clients as they navigate the adoption process.

## Abiding Love Process

*As a Nonprofit Adoption Agency, we never financially benefit off of her decision and can discuss her options with absolutely no pressure. All services are free & confidential*
